

Plastic Bottle Bird Feeder

You will need:-

A plastic pop bottle

Scissors or craft knife

Glue

Acrylic paint

Bird food

Wash out your plastic
bottle with warm,
soapy water

Cut off the top of the top half of the bottle and the bottom half, either with your scissors or your craft knife

Be very careful, you can always ask your grown up to help you out.

Cut out a hole so
that the birds can
eat from the feeder
and glue the top to
the bottom

Now you can
decorate your bird
feeder
And when it's dry,
put some bird feed
in it
