

Spring 2 in Year 3

Welcome back to school after half term! We hope you have enjoyed the break and are ready to continue with our learning journey. 😊

Science Week

Towards the end of the half term, we will be having a couple of days to focus on science and various investigations. In the lead up to this, could you please be mindful about saving various plastic items and objects from your home? We don't want to ruin the surprise as we will be using them in some of our investigations. We will let you know closer to the time when we would like them fetching in to school.

Homework Menu

In the first week back, your child will receive a homework menu with a range of possible projects to complete. Please aim to bring in a different project on each of the below dates:

Friday 8th March 2019

Friday 22nd March 2019

Learning Journey

We have now finished reading the Iron Man and will be starting our new novel 'House of Robots' in the next half term. This will continue to help us to investigate this term's question '**Is technology a good thing?**'. We will be using this to have more of a D&T focus and will be looking into making some model robots in school – including the planning and evaluating process which will then lead into some of our writing lessons.

Science

In Science, we will be asking the question '**How does your plant grow?**'. This will lead nicely into Spring being just around the corner. We will investigate the different functions of the various parts of a plant and how these parts help the plant to grow.

P.E

P.E will continue to be on a Thursday and Friday so please ensure your child has their kit in school.
